

Reclassering Nederland

Risk Assessment the Dutch Way

A Scalable, Easy to Use Tool for
Probation Reports

J.M. van Tuinen

H. van Alphen

L.M. van Essen

Background

- Current tools: fourth generation risk assessment instruments (Andrews & Bonta 2010)
- International developments in risk assessment (Williams 2010, De Vogel 2013)
- Ambition to adjust current tools to new scientific insights
- Improve usability for probation officers

Development of a new tool

- Easy to use & understand (Maung & Hammond 2000)
- Learning organisation: easy to adapt based on new research & developments and evaluations (Maung & Hammond 2000)
- Integration of specific tools for different groups of offenders
- In close collaboration with probation officers and researchers
